DENIM SPRAY FINISHING

Think about your
process and recipes
to win the future

WEKO

The precise non-contact minimal spray application on a wide variety of materials is our specialty. Our systems saves huge amounts fresh & waste water, chemicals and energy as well as lowering your machine down times. A clear cost-benefit advantage for you and for our planet.

Lilienweiß

We are a textile service company and offer each of our customers a concept tailored to their specific requirements. We are a competent partner when it comes to the finishing and processing of finished parts.

DR. PETRY

We produce textile chemicals for the pretreatment, dyeing, finishing, coating and printing of all natural and synthetic fibers. We also offer sizing agents and yarn finishing agents as well as special auxiliaries and pigments for garment finishing.
